ABSTRACT**SNOW GLIDING BOARD WITH OUTER FACE HAVING A TRANSPARENT
PROTECTIVE FILM AND PRODUCTION METHOD**

A snow gliding board (1) comprises, in particular, an outer face (6) formed by a decorative and protective upper assembly, said decorative and protective upper assembly being covered with at least one varnish film on at least its outer surface (6). The varnish film or films form a set of bosses (21, 22) protruding from some or all of the outer face (6) of the snow gliding board (1).
